

Appendix B: Covid-19 disruption

Please provide details of disrupted project work, including dates when the work was planned to take place and reasons for the disruption (e.g. inaccessible equipment, illness).

If your work was disrupted, to what extent was it possible to redefine elements of your project so as to achieve alternative goals? Please comment on the success, or otherwise, of the Covid-19 contingency plan that you formulated last summer and documented on your *Project Planning Form*.

This appendix should not exceed one page in length.
