

ESSENTIAL DRAWING EQUIPMENT

Complete drawing kits will be available to buy from the Vending Machine located in the Design and Project Office on the 1st floor of the Department of Engineering.

Payment can only be processed by card or mobile phone, cash is **not** accepted.

Ecobra Geometry Compass Matt Nickel Plated, Part Number 3754, is available from Amazon, Teloman.com and other suppliers.

A compass is included in the drawing kit.

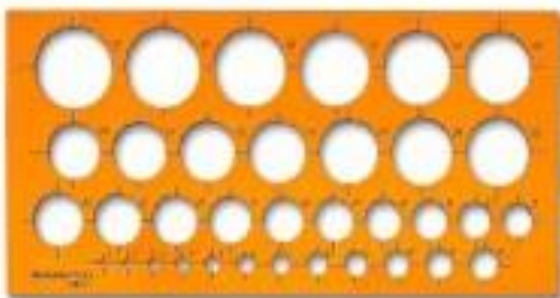

If you choose to purchase a different compass than the model we have recommended, you must purchase one that holds Lead inserts, it must NOT take pencils.

Rumold Geodreieck Protractor, Part Number 1026, is available from a number of suppliers.

A protractor is included in the drawing kit.

We would strongly recommend you buy one of these as they are an important piece of equipment.

Rumold Circle Template, Part Number 2812, is available from a number of different suppliers.

A circle template is included in the drawing kit.

If you buy your own then please ensure the one you purchase has a similar range of circle sizes to the one we recommend.
