

Cambridge University Engineering Department
Part IA: Exposition Course 2014
Exposition Group Leaders and Initial Meeting Places

In the tables below you will find information about exposition classes. The first table is in lab group order, telling students the name of the leader of their Exposition class.

The second table gives the full name of the leader together with their e-mail address and the location of the first session. Note that many locations are away from the main Engineering site (Baker and Inglis Buildings), and may require a 10-20 minutes bicycle ride. Please make sure that you locate your meeting place in advance of your first session so as not to delay start of the exposition group activities.

The Nanoscience Laboratory is located on the West Cambridge Site, off Madingley Road.

IfM, The Institute for Manufacturing is located on the West Cambridge Site, off Madingley Road.

The CAPE Building is located on the West Cambridge Site, off Madingley Road.

At College locations ask for directions at the Porter's Lodge.

At CUED (Cambridge University Engineering Department) ask for directions at Reception.
