

## **Engineering Tripos Part IIA Project, GM2: Technology for the Poorest Billion, 2017-18**

### **Leader**

[Dr A J Kabla](#) [1]

### **Timing and Structure**

Thursdays 11-1pm, and Mondays 9-11am plus afternoons. Lent Term Preparation: Talk attendance on Wed 31 Jan 2018, 4-6pm. Wed 14 March 2018, 3-6pm. Open discussion about projects of interest and team activity.

### **Aims**

The aims of the course are to:

- To introduce students to the challenges of designing and innovating with technology in the context of international development.
- To provide students with opportunities to learn hardware and software rapid prototyping skills.
- To develop students' skill with project development, open collaborations and documentations writing.

### **Content**

The project brings hardware design challenges from international development and humanitarian contexts to undergraduate Engineers. Students will be challenged over the course of four weeks to prototype and test solutions using open source technologies, and document their progress. Students will be working in the Dyson Centre, and a limited budget will be available to them to create their prototype. The project is developed and offered in collaboration with the Centre for Global Equality. Principles of interdisciplinarity, openness and collaboration are key to successful international development projects. Students from all areas of engineering are welcome to join this team-based activity where complementary skills are an asset.

### **ACTIVITIES**

1. Wed 31st Jan 2018, 4pm: Lara Allen, Director of the Centre for Global Equality, will present some of the most pressing challenges faced by the poorest billion on the planet, and cover a number of success stories, but also highlight failures and works in progress.
2. Wed 14 March 2018, 3-6pm: Open discussion about projects of interest and team activity.
3. Project Week 1: Developing a proposal including costing. Identifying team strengths and weaknesses, setting up work-plan and roles for the project development.
4. Week 2/3: Early prototype development.
5. Week 3: Interim presentation, preliminary feedback from judging panel.
6. Week 3/4: Development of final prototype, project report, online documentation et video demonstration.

### **Coursework**

Coursework	Due date	Marks
Proposal/team presentation/Budget description	Thu 17 May 2018	15 (5 individual)
Interim presentation	Tue 29 May 2018	15 (5 individual)
Presentations	Week 4 (timetable to be arranged during project)	20 (individual)
Group report & online documentation	4pm, Thu 7 June 2018	30 (5 individual)

## Examination Guidelines

Please refer to [Form & conduct of the examinations](#) [2].
