Very good	<b>Good</b>	Needs improvmt
-----------	-------------	----------------

C O N T E N T	<p><b>Completeness, quantity of content:</b> Has the report covered all aspects of the lab? Has the analysis been carried out thoroughly?</p>			
	<p><b>Correctness, quality of content</b> Is the data correct? Is the analysis of the data correct? Are the conclusions correct?</p>			
	<p><b>Depth of understanding, quality of discussion</b> Does the report show a good technical understanding? Have all the relevant conclusions been drawn?</p>			
	Comments:			
P R E S E N T A T I O N	<p><b>Attention to detail, typesetting and typographical errors</b> Is the report free of typographical errors? Are the figures/tables/references presented professionally?</p>			
	Comments:			

Raw report mark	<b>/ 5</b>
Penalty for lateness	

*The weighting of comments is not intended to be equal, and the relative importance of criteria may vary between modules. A good report should attract 4 marks.*

*1 mark / week or part week.  
Please refer to the [online](#) information regarding our extension policy.*
